In this delightful companion book to Geneviève Côté’s *Me and You*, fussy bunny and exuberant piggy discover that although they can play separately, it is much more fun to do things together. Bunny is frustrated and angry when piggy pulls the wagon containing their toys too quickly, causing them to spill out. They decide they don’t want to play together anymore and proceed to read, play, and eat by themselves. But they soon discover that books are funnier and snacks are tastier when you share them with a friend.

Côté’s watercolour and crayon illustrations evocatively display the characters’ initial dismay and anger, and the shift to happiness. Each page also contains a whimsical butterfly and a cheeky frog getting into trouble. The story concludes with the two friends in the wagon, which they have converted into an airplane, flying off happily together. The ups and downs of friendship are made admirably clear, but the message complements this charming narrative and its lovely illustrations.
