Mr Greedy’s Chocolate Dilemma

John Gough

Mr Greedy loves eating chocolate. Mr Greedy always chooses to eat as much chocolate as he can in one “serve”. Here are ten separate serves of chocolate, labelled A, B, C, to J.

Which “serve” will Mr Greedy choose to eat first? Why?

Which serve will he eat next? Why?

Mr Manners always lets other people have more than he does. He chooses the smallest serve he can, when he has a choice.

Which serve will Mr Manners choose to eat? Why?
