Paper Acceptance Letter
Ref: M170415.274

Dear Tarek Ahmed,

We are pleased to inform you that the Program Committee of the TMREES15 International Conference after rigorous peer review has decided to accept your submission for publication after minor revision for your manuscript.

TMREES14 International Conference on Technologies and Materials for Renewable Energy, Environment and Sustainability, will be held April 17-20, 2015, Beirut-Lebanon.

Paper ID: M170415.274

Paper Title: Energy-efficient Tall buildings design strategies: A holistic approach.

Please note that final acceptance of your paper is subject to the compliance of the revised manuscript with the reviewers' recommendations.

TMREES15 International Conference Publications All papers will be peer reviewed before being accepted for the International Conference on Technologies and Materials for Renewable Energy, Environment and Sustainability (TMREES15):

1-Energy Procedia Journal-Elsevier: Related Accepted papers will be published by Elsevier in a special Issue at EGYPRO J.

2-International Journal of Hydrogen Energy (5-Year IF: 3.448): A special Issue of 40 papers will be published for TMREES15 in the IJHE.

3- Management of Environmental Quality: Related Accepted papers will be published by Emerald in a special Issue.

4- International Journal of Agricultural Resources, Governance and Ecology:
Related Accepted papers will be published by inderscience in a special Issue.

Published Volume will be submitted for abstracting and indexing in:

Scopus, Web of sciences, Current Abstract (EBSCO), TOC Premier, SJR, EI- Compendex and Engineering Index

We are looking forward to meet all the authors in our conference. But if you and your co-author(s) could not attend TMREES15 to present your paper for some reasons, you can delegate a colleague or please inform us and we will ask one of our scientific team to help you.

Letter has been issued for visa application and financial support from your organization.

TMREES15 Chairs Committee

Chafic Salame, Michel Aillerie and Panagiotis Papageorgas

----- REVIEW 1 -----

PAPER: 274

TITLE: Energy-efficient Tall buildings design strategies: A holistic approach

AUTHORS: Hazem Elotefy and Tarek Ahmed

----- REVIEW -----

The manuscript is very interesting.

A few concerns, however, have to be addressed:

- Acronyms should not be used unless they were defined; -In introduction, correct: Hazem et al (2015) compared several case studies in order to respect the template; -Also, correct: Clair (2010) stated that placing..... and Ling et al. (2007) discussed the role.....
- Punctuation should be improved in some places of paper; -In paragraph 3-1, correct : Figure presents the framework for energy efficiency strategy in tall buildings -Figures have to be redone for readability;
- Correct the numbering of figures. Figure 5 is doubled ;
- To ensure that the paper is up to date, citations have to be updated to some newest literature.

----- REVIEW 2 -----

PAPER: 274

TITLE: Energy-efficient Tall buildings design strategies: A holistic approach

AUTHORS: Hazem Elotefy and Tarek Ahmed

----- REVIEW -----

Paper can be accepted for publication after the following mandatory revision:

- Concerning All figures (text and scales), tables and equations: Resolution must be enhanced, text and scales must be retyped to obtain a high resolution in order to avoid paper rejection by Elsevier during the final phase of publication.(example of the resolution in the attached file).

* You can exceed the 8 pages if you need to enhance the size of your figures and improve the resolution.

-All figures and tables: must be within the text marginal of the paper (Right and Left sides)

*** Very Important remark:

- Figures should be visibly clear without any distortion otherwise paper will not pass the Elsevier's Quality Control System.
- If figures quality and resolution have not been improved during the final submission the paper will be rejected and excluded from the Volume.<This review contains an attachment, see the file review_2.pdf attached to this letter.>
