Dear Mr Vu Nguyen,

We are pleased to inform you that your manuscript, "Bayesian Nonparametric Approaches to Abnormality Detection in Video Surveillance", has been accepted for publication in Annals of Data Science.

You will receive an e-mail in due course regarding the production process.

Please remember to quote the manuscript number, AODS-D-15-00002, whenever inquiring about your manuscript.

With best regards,

Yong Shi Editor-in-Chief

Reviewer #1: This paper revisited the abnormality detection problem through the lens of Bayesian nonparametric (BNP) and develop a novel usage of BNP methods for this problem. In particular, they emploied the Infinite Hidden Markov Model and Bayesian Nonparametric Factor Analysis for stream data segmentation and pattern discovery. In addition, introduced an interactive system allowing users to inspect and browse suspicious events. This paper is well written and interesting. I suggest to accept this paper.
